As a nationally licensed agency with access to a diverse insurance carrier market and investment firms, PIB offers unique insurance solutions and custom financial services that empower our clients with real choices. Our personalized approach, industry expertise, and commitment to integrity have helped us earn and retain our clients' trust and confidence over the years.

No matter how small or how large your insurance or financial planning needs are - whether you have a personal or corporate need - we can help you find an insurance or financial solution that will work for you.

- Wealth Management & Financial Planning
- Commercial Business Solutions
- Group Benefits & Group Retirement Services
- Life Insurance & Living Benefits
- Home & Auto Insurance

RESPONSIBILITIES

Data Owner:

- Data types include primarily client based, sales based, revenue and expense related data
- Responsible for collecting, organizing and analyzing data across all lines of business with multiple administration systems and disseminating the results to senior leadership and parent company
- Collaborate with operational teams within all lines of business to improve data availability
- Develop new data dashboards, charts and visual aids to support decision making
- Maintain on a regular basis the ingestion of data from administration systems into data analysis tools (Salesforce, PowerBI, PowerQuery, Excel, etc.)
- Support the creation of templates and documentation
- Handle large volumes of structured and unstructured data
- Collaborate with people inside the organization

- Participate fully as a member of the team, promote team effectiveness and contribute to a positive work environment
- Ad hoc projects and support to the rest of the Finance Team

Modernization Projects:

- Work closely with the Director, Finance & Process Improvements on all data-related projects
- Work in conjunction with the Finance team to improve processes around obtaining and maintaining data to support KPI reporting to senior leadership and the parent company
- Develop and maintain tools to support, simplify and automate processes related to interpreting data
- Provide recommendations to improve effectiveness and/or efficiency of business processes related to data creation
- Respond to ad hoc business inquiries

QUALIFICATIONS

- Bachelor's degree in mathematics, statistics, economics, engineering, science or related field
- 2+ years' work experience preferably in a financial/insurance environment
- Proficient in Microsoft Office suite of products, with emphasis on strong Excel skills (macros, pivot tables, look-ups, and filtering)
- Experience with data languages and data visualization (e.g. PowerBI, Salesforce)
- Experience with database and model design and segmentation techniques
- Proven analytical skills with the ability to collect, organize, analyze and disseminate information with attention to detail and accuracy

BENEFITS AND PERKS

- You will enjoy a very competitive compensation model
- A comprehensive employee group benefits package (health, dental, disability, life and travel)
- Profit sharing and company pension
- Flexibility within the role, hours, and office locations
- Wellness Programs and Social Committee to provide team, family and individual collaboration and culture around strategic goals, fun, wellness, health and lifestyle
- Committed to diversity, equity and inclusion
